February 4, 2015

**CERTIFIED MAIL** 

TO: MAILING LIST

# ORDER WR 2015-0002-DWR: ORDER FOR ADDITIONAL INFORMATION IN THE MATTER OF DIVERSION OF WATER FROM THE SACRAMENTO AND SAN JOAQUIN RIVER WATERSHEDS

The attached State Water Resources Control Board (State Water Board) Order WR 2015-0002-DWR (Order) affects diversions from the Sacramento and San Joaquin River watersheds. Your diversion is located within the affected boundary so you are required to respond to the enclosed Order. As a pre-1914 and/or riparian water right claimant, you must provide specific information identified in the Order within the timelines identified therein. This requires your immediate attention.

## **Emergency Regulations for Curtailment of Diversions to Protect Senior Water Rights**

On July 2, 2014, the State Water Board adopted emergency regulations for Curtailment of Water Diversions to Protect Senior Water Rights (California Code of Regulations, title 23, adding sections 875 and 878.3, and amending sections 878.1 and 879) (Regulations). The Regulations were reviewed by the Office of Administrative Law and went into effect on July 16, 2014. The Regulations establish a drought emergency curtailment method for post-1914 water right holders and requirements for riparian and pre-1914 rights holders to provide additional information in specific circumstances.

Pursuant to section 879, subdivision (c), the Deputy Director for the Division of Water Rights has delegated authority to issue an Order requiring riparian or pre-1914 water right holders to provide additional information. Section 879, subdivision (c), states:

Upon receipt of a complaint alleging interference with a water right by a riparian or pre-1914 appropriative water right holder or upon receipt of information that indicates unlawful diversions of stored water by riparians or pre-1914 appropriative water right holders, the Deputy Director may issue an order under this article requiring such water right holders to provide additional information regarding the property patent date, the date of initial appropriation, and diversions made or anticipated during the current drought year. Any water right holder receiving an order under this subdivision shall provide the requested information within five (5) days.

The Regulations are available at:

http://www.waterboards.ca.gov/waterrights/water\_issues/programs/drought/water\_availability.shtml

## **Allegations of Unauthorized Diversions**

On July 23, 2014, the California Department of Water Resources (DWR) and U.S. Bureau of Reclamation (Reclamation) alleged that south and central Delta diverters were illegally diverting water in excess of their water rights and requested that the State Water Board exercise its statutory authority to require Delta water users to provide proof of their "assumed" water rights or require curtailment of the unauthorized diversions. The State Water Contractors and Westlands Water District submitted letters in support of the DWR and Reclamation request on August 5 and 7, respectively.

On August 13, 2014, the Division received a complaint filed by California Sportfishing Protection Alliance (CSPA) alleging illegal diversion of water from the San Joaquin, Mokelumne, Cosumnes and Calaveras Rivers and Delta agricultural return flow by DWR and Reclamation at their Delta pumping facilities and illegal diversion of San Joaquin River riparian flow by Reclamation at its Friant Project. The letter states that it is a complaint against Reclamation and [unnamed] others for unauthorized and illegal diversion of San Joaquin River riparian flow.

### Information Required

All riparian and pre-1914 claimants within the Sacramento-San Joaquin River Watersheds receiving the attached Order are required to submit the following information **no later than March 6, 2015.** 

- (A) The monthly amounts of water diverted and the basis of right allowing for the diversions for 2014, and the anticipated monthly amount of water to be diverted under each separate claim of right for 2015. The diversion information shall include separate amounts for water diverted to storage and for water directly diverted. The direct diversion information shall also include the maximum rate of diversion, and for each month, you should identify the method used to determine the amounts reported. This information shall be reported at: http://www.waterboards.ca.gov/waterrights/water\_issues/programs/ewrims/curtailment/wateruseinfo.shtml
- (B) Identification of the point of diversion and place of use for each diversion of water, the type of water right being claimed for each point of diversion, the purpose of use, and the place of use being served with acreage and crop type, if applicable. All documentation supporting the type of water right claimed, including the property patent date and patent map, if riparian right. If pre-1914 right is claimed, a copy of notice filed with the county, copy of property deed and all other information supporting the pre-1914 right pertaining to initial diversion and continued beneficial use of water. This information is an attachment to the report filed in (A) and must be filed electronically at: <a href="mailto:SWRCB-2014informational-order@waterboards.ca.gov">mailto:SWRCB-2014informational-order@waterboards.ca.gov</a>.
- (C) The monthly diversion for each month starting with February, 2015 shall be submitted by the 5th of each succeeding month until the drought ends.

Failure to comply with this Order could subject the party to enforcement action. Please provide the information identified on the Information Order by e-mail to: SWRCB-2014informational-order@waterboards.ca.gov.

If you have any questions regarding this Order, please contact Kathy Mrowka, Manager, Enforcement Section at (916) 341-5363 or Kathy.Mrowka@waterboards.ca.gov; or Andrew Tauriainen, Senior Staff Counsel, Office of Enforcement at (916) 341-5445 or Andrew.Tauriainen@waterboards.ca.gov.

Sincerely,

**ORIGINAL SIGNED BY:** 

Barbara Evoy, Deputy Director Division of Water Rights

Enclosure: Order and Attachments

## STATE OF CALIFORNIA CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY STATE WATER RESOURCES CONTROL BOARD

#### **DIVISION OF WATER RIGHTS**

#### ORDER WR 2015-0002-DWR

#### ORDER FOR ADDITIONAL INFORMATION

In the Matter of Diversion of Water from

#### SACRAMENTO AND SAN JOAQUIN RIVER WATERSHED AND DELTA

#### **BACKGROUND:**

- 1. On April 25, 2014, Governor Edmund G. Brown Jr. issued an Executive Order to strengthen the state's ability to manage water and habitat effectively in drought conditions and called on all Californians to redouble their efforts to conserve water. The Executive Order finds that the continuous severe drought conditions present urgent challenges across the state including water shortages for municipal water use and for agricultural production, increased wildfire activity, degraded habitat for fish and wildlife, threat of saltwater contamination, and additional water scarcity if drought conditions continue into 2015.
- 2. The Executive Order refers to the Governor's Proclamation No. 1 -17-2014, issued on January 17, 2014, declaring a drought State of Emergency to exist in California due to severe drought conditions. The January Proclamation notes that the state is experiencing record dry conditions, with 2014 projected to become the driest year on record. These conditions also threaten the survival and recovery of fish, wildlife, and plants that rely on California's rivers, including many species in danger of, or threatened with, extinction. The January Proclamation also calls on all Californians to reduce their water usage by 20 percent.
- 3. On May 27, 2014, the State Water Resources Control Board (State Water Board) issued a "Notice of Unavailability of Water and Immediate Curtailment for Those Diverting Water in the Sacramento and San Joaquin River Watershed with a Post-1914 Appropriative Right." Based upon the reservoir storage and inflow projections, along with forecasts for precipitation events, the State Water Board determined the existing water supply in the Sacramento and San Joaquin River watershed was insufficient to meet the needs of all water rights holders. With the notice, the State Water Board notified all holders of post-1914 appropriative water rights within the Sacramento and San Joaquin River watershed of the need to immediately stop diverting under their post-1914 water rights, with some minor exceptions for non-consumptive diversions. Approximately 5,435 junior water-rights in the Sacramento River watershed and 3,116 water rights in the San Joaquin River watershed received curtailment notices. The condition of curtailment continued until water conditions improved and curtailment could be lifted.
- 4. On July 2, 2014, the State Water Board adopted an emergency regulation for Curtailment of Water diversions to Protect Senior Water Rights (California Code of Regulations, title 23, adding section 875 and 878.3, and amending Section 878.1 and 879¹) (Regulations). The Regulations were reviewed by the Office of Administrative Law and went into effect on July 16, 2014. The Regulations establish a drought emergency curtailment method for post-1914 water right holders and requirements for riparian and pre-1914 rights holders to provide additional information in specific circumstances.
- 5. Pursuant to section 879, subdivision (c), the Deputy Director for the Division of Water Rights (Division) has delegated authority to issue an Order requiring riparian or pre-1914 water right holders to provide additional information. Section 879, subdivision (c), states:

<sup>&</sup>lt;sup>1</sup> All further section references are to California Code of Regulations, title 23 unless otherwise indicated.

Upon receipt of a complaint alleging interference with a water right by a riparian or pre-1914 appropriative water right holder or upon receipt of information that indicates unlawful diversions of stored water by riparians or pre-1914 appropriative water right holders, the Deputy Director may issue an order under this article requiring such water right holders to provide additional information regarding the property patent date, the date of initial appropriation, and diversions made or anticipated during the current drought year. Any water right holder receiving an order under this subdivision shall provide the requested information within five (5) days.

- 6. On July 23, 2014, the California Department of Water Resources (DWR) and U.S. Bureau of Reclamation (Reclamation) alleged that south and central Delta riparian and pre-1914 diverters were illegally diverting water stored and released by the State Water Project and the Central Valley Project (collectively, Projects) and water acquired by the Project Agencies' contractors through transfer and exchange agreements. DWR and Reclamation requested that the State Water Board exercise its statutory authority to require Delta water users to provide proof of their "assumed" water rights or require curtailment of the unauthorized diversions. The State Water Contractors and Westlands Water District submitted letters in support of the DWR and Reclamation request on August 5 and 7, 2014 respectively.
- 7. On August 13, 2014, the Division received a complaint filed by California Sportfishing Protection Alliance (CSPA) alleging illegal diversion of water from the San Joaquin, Mokelumne, Cosumnes and Calaveras Rivers and Delta agricultural return flow by DWR and Reclamation at their Delta pumping facilities and illegal diversion of San Joaquin River riparian flow by Reclamation at its Friant Project. The letter states that it is a complaint against Reclamation and [unnamed] others for unauthorized and illegal diversion of San Joaquin River riparian flow.
- 8. Storage by the Projects may be affected in two manners. As asserted in the July 23 letter, where water quality standards are controlling Project operations, any diversion of stored water by riparian and pre-1914 diverters necessitates additional releases of stored water or reductions in Project deliveries. In addition, the Division notes that unauthorized diversions anywhere within the Sacramento and San Joaquin River watershed and Delta may reduce instream flows in a manner which would require the Projects to increase reservoir releases to meet Delta water quality standards.
- 9. Attachment A is a summary of the largest Statement of Water Diversion and Use (Statement) holders claiming riparian and pre-1914 rights in the Sacramento and San Joaquin River watershed and Delta from the State Water Board's electronic water rights information management system (eWRIMS) and Report Management System (RMS). These large diverters claiming rights to divert from April 1 to September 30 have potential to divert water released from Project storage facilities or water needed by other senior rights. Direct diversion for power generation is excluded from this list, because it is non-consumptive. The list in Attachment A represents 90 percent of reported water use by Statement holders in the Legal Delta and 90 percent of the remaining Sacramento and San Joaquin watershed reported demand. The list includes 1,061 claimed rights, held by a total of 445 different parties. Additional information regarding these known diversions is necessary to determine if there has been unauthorized diversion of stored water or if there is potential for unauthorized diversion.
- 10. On November 24, 2014, the Division requested that Statement holders who had not previously identified their year of first use do so. This Informational Order requests more extensive information documenting the claimed right. Irrespective of whether you responded to the November 24 letter, you will need to respond to this order.

#### FINDINGS:

1. Section 879, subdivision (c), authorizes the Deputy Director for the Division to require parties claiming a riparian or pre-1914 right to divert water to submit certain information concerning the water rights claimed and concerning the past and future anticipated diversions under the claimed right. Section 879,

- subdivision (c), supplements the State Water Board's general investigatory authority under Water Code sections 183 and 1051.
- 2. The Deputy Director for the Division has information that indicates there may be unlawful diversions of stored water by riparians or pre-1914 appropriative water right claimants in the Sacramento and San Joaquin River watershed and Delta.
- To determine whether unauthorized diversions have occurred, the State Water Board needs supporting
  documentation for the claimed water right including the property patent date and the date of initial
  appropriation.
- 4. To determine whether unauthorized diversions have occurred, the State Water Board needs additional information on diversions made under a riparian or pre-1914 basis-of-right during 2014 and projected 2015 use.

#### IT IS HEREBY ORDERED:

- 1. This order is issued on the date shown below. However, this order takes effect on March 1, 2015, which is the 25<sup>th</sup> day after issuance of the order. All submittal requirements are based on the effective date of this order.
- 2. The existing pre-1914 and riparian water right claimants along the Sacramento and San Joaquin River watershed and Delta known by the State Water Board, as identified in Attachment A, are subject to this Order for additional information pursuant to section 879, subdivision (c), and shall provide the following information no later than March 6, 2015:
  - (A) The monthly amounts of water diverted and the basis of right allowing for the diversions for each month in 2014, and the anticipated monthly amount of water to be diverted and the basis of right each month in 2015. For direct diversion, the diversion information shall include the total amount of water diverted in the month and the maximum rate of diversion for each month. For storage, the diversion information shall include the quantity collected to storage each month. For all methods of diversion, you are requested to identify the method used to determine the amounts reported, and the primary use of water. This information shall be filed electronically at: <a href="http://www.waterboards.ca.gov/waterrights/water\_issues/programs/ewrims/curtailment/wateruseinfo.shtml">http://www.waterboards.ca.gov/waterrights/water\_issues/programs/ewrims/curtailment/wateruseinfo.shtml</a>
  - (B) Identification and location of the point of diversion and place of use for water right being claimed for each point of diversion, the purpose of use, and the place of use being served with acreage and crop type, if applicable. All documentation supporting the type of water right claimed, including the property patent date and patent map, if riparian right. If pre-1914 right is claimed, a copy of notice filed with the county, copy of property deed and all other information supporting the pre-1914 right pertaining to initial diversion and continued beneficial use of water. This information is an attachment to the report filed in (A) and must be filed electronically at: mailto:SWRCB-2014informational-order@waterboards.ca.gov.
  - (C) If the current drought declaration is extended, the monthly diversion amount for each month starting with February 2015 shall be submitted by the fifth (5<sup>th</sup>) of each succeeding month until the drought ends.
- 3. All water users or water right claimants receiving this Order are required to submit the information requested. Failure to comply with this Order subjects the party to enforcement action.
- 4. Reservation of Enforcement Authority and Discretion: Nothing in this Order is intended to or shall be construed to limit or preclude the State Water Board from exercising its authority under any statute, regulation, ordinance, or other law, including, but not limited to, the authority to bring enforcement against diverters for unauthorized diversion or use in violation of Water Code section 1052.
